About This Game

After a series of unfortunate events, you end up having to live in an assortment of hotels and B&B's. With money fast running out and with no luck renting a place, you get a mysterious phone call offering you a room...

This is a simple text only interactive novel, that comes with the complete Ren'Py project too.

I was going to make it into a series or something, but the released was delayed for so long, I won't bother now, especially as the WTC takes precedence.

Lady "She will eventually get over it, in time though. She
Scott just needs to get... used... to you..."

Carmo "I hope I'll be able to change her mind about
Durga whatever she thinks about me. In the meantime, it's very nice of you to invite me here, Lady Scott"

Lady "But please call me Madison."
Scott

Lady "Heh... Just think of it as exercise for more... exciting
Scott things..."

Carmo Back to the innuendo, I see...
Durga

Carmo This corridor is brightly lit and well furnished too -
Durga obviously no expense was spared in decorating even
this part of the mansion...

Carmo It certainly did feel weird though, being dragged
Durga along by the hand to places, or rather room,
unknown...

Scott discussion didn't go to waste then..."

Carmo And with that Lady Scott started to leave
